 - (a) Denial of an application for licensure.
 - (b) "Letter of warning." This is a written action. It is informal and advisory in nature and does not constitute a formal disciplinary action.
 - (c) "Formal reprimand." This is a written action. It is a formal disciplinary action.
 - (d) "Probation." This is a formal disciplinary action for a fixed period of time.

 - (f) "Licensure revocation." This is a formal disciplinary action which removes a licensee from the practice of the profession and terminates the license previously issued. No new application for licensure from a person whose license was revoked shall be considered prior to the expiration of at least one (1) year unless otherwise stated in the Board's revocation order.
 - (g) Conditions - Any action deemed appropriate by the Board to be required of a disciplined licensee in any of the following circumstances:

 - (h) Civil penalty - A monetary disciplinary action assessed by the Board pursuant to paragraph three (3) of this rule.

- (2) Order Modifications – A licensee can petition the Board to modify a previously issued disciplinary order if the licensee cannot fulfill the conditions of the imposed discipline. This procedure is only available after all reconsideration and appeal rights have been either exhausted or not timely pursued. This procedure cannot be used to modify any findings of fact, conclusions of law, or the reasons for the decision contained in the order.

(Rule 0870-01-.13, continued)

- (a) The Board will entertain petitions for modification of the disciplinary portion of previously issued orders upon strict compliance with the procedures set forth in subparagraph (b) only when the petitioner can prove that compliance with any one or more of the conditions or terms of the discipline previously ordered is impossible. For purposes of this rule the term "impossible" does not mean that compliance is inconvenient or impractical for personal, financial, scheduling or other reasons.
- (b) Procedures
 1. The petitioner shall submit a written and signed Petition for Order Modification to the Board's Office that shall contain all of the following:
 - (i) A copy of the previously issued order; and

No documentation or testimony other than that submitted will be considered in making an initial determination on, or a final order in response to, the petition.
 2. The Board authorizes administrative staff to make an initial determination on the petition and take one of the following actions:
 - (i) Certify impossibility of compliance and forward the petition to the Office of General Counsel for presentation to the Board as an uncontested matter; or
 - (ii) Deny the petition, after consultation with the Office of General Counsel, if impossibility of compliance with the provisions of the previous order is not proven and notify the petitioner of what proof of impossibility of compliance was either not sufficient or not submitted.
 3. If the petition is granted, a new order shall be issued reflecting the modifications authorized by the Board that it deemed appropriate and necessary in relation to the violations found in the previous order.
 4. If the petition is denied either initially by staff or after presentation to the Board and the petitioner believes impossibility of compliance with the order has been sufficiently proven, the petitioner may request, in writing, to appear before the Board not less than thirty (30) days before the next regularly scheduled meeting of the Board.
- (3) Civil Penalties - The purpose of this rule is to set out a schedule designating the minimum and maximum civil penalties which may be assessed pursuant to T.C.A. § 63-1-134.

Type B civil penalties may be assessed in the amount of not less than \$100 and not more than \$500.

Type C civil penalties may be assessed in the amount of not less than \$1 and not more than \$100.

(b) Procedures for Assessing Civil Penalties

0870-01-.17 ADVERTISING.

- (1) Policy Statement. Lack of sophistication on the part of many members of the public concerning professional massage services, the importance of the interests affected by the choice of a massage therapist or a massage establishment and the foreseeable consequences of unrestricted advertising by massage therapists or on behalf of massage establishments, which is recognized to pose special possibilities for deception, require that special care be taken to avoid misleading the public. Massage therapists and massage establishments must be mindful that the benefits of advertising depend upon its reliability and accuracy. Since advertising is calculated and not spontaneous, reasonable regulation designed to foster compliance with appropriate standards serves the public interest without impeding the flow of useful, meaningful, and relevant information to the public.
- (2) Definitions - As used in this rule, the following terms shall have the meanings ascribed to them:
 - (a) Advertisement - Informational communication to the public in any manner designed to attract public attention to the practice of a Tennessee licensed massage therapist or massage establishment.
 - (b) Material Fact - Any fact which a reasonable and prudent person would need to know or rely upon in making an informed decision concerning the choice of practitioners or establishments to serve his or her particular needs.
 - (c) Bait and Switch Advertising - An alluring but insincere offer to sell a product or service which the advertiser in truth does not intend or want to sell or provide. Its purpose is to switch consumers from buying or receiving the advertised merchandise or services, in order to sell or provide something else, usually at a higher fee or on a basis more advantageous to the advertiser.
 - (d) Discounted Fee - A fee offered or charged by a person, organization or establishment for any massage therapy product or service that is less than the fee the person or organization usually offers or charges for the product or service. Products or services expressly offered free of charge shall not be deemed to be offered at a "discounted fee."
- (3) Advertising Fees and Services
 - (a) Fixed Fees. Fixed fees may be advertised for any service. It is presumed, unless otherwise stated in the advertisement, that a fixed fee for a service shall include the cost of all professionally recognized components within generally accepted standards that are required to complete the service.

(Rule 0870-01-.17, continued)

- (b) Ranges of Fees. A range of fees may be advertised for services. However, the advertisement must disclose the factors used in determining the actual fee, necessary to prevent deception of the public.
 - (c) Discount Fees. Discount fees may be advertised if:
 - 1. The discount fee is in fact lower than the licensee's customary or usual fee charged for the service; and
 - 2. The licensee provides the same quality and components of service and material at the discounted fee that are normally provided at the regular nondiscounted fee for that service.
 - (d) Related Services and Additional Fees. Related services which may be required in conjunction with the advertised service for which additional fees will be charged must be identified as such in any advertisement.
 - (e) Time Period of Advertised Fees. Advertised fees shall be honored for those seeking the advertised services during the entire time period stated in the advertisement whether or not the services are actually rendered or completed within that time. If no time period is stated in the advertisement of fees, the advertised fee shall be honored for thirty (30) days from the last date of publication or until the next scheduled publication, whichever is later, whether or not the services are actually rendered or completed within that time.
- (4) Advertising Content. The following acts or omissions in the context of advertisement by any licensee shall constitute unethical and unprofessional conduct, and subject the licensee to disciplinary action pursuant to T.C.A. § 63-18-108.
- (a) Claims that the services performed, personnel employed, materials or office equipment used are professionally superior to that which is ordinarily performed, employed or used, or that convey the message that one licensee is better than another when superiority of services, personnel, materials or equipment cannot be substantiated.
 - (b) The misleading use of an unearned or non-health degree in any advertisement.
 - (c) Promotion of a professional service which the licensee knows or should know is beyond the licensee's ability to perform.
 - (d) Techniques of communication which intimidate, exert undue pressure or undue influence over a prospective client.
 - (e) Any appeals to an individual's anxiety in an excessive or unfair manner.
 - (f) The use of any personal testimonial attesting to a quality or competence of a service or treatment offered by a licensee that is not reasonably verifiable.
 - (g) Utilization of any statistical data or other information based on past performances for predication of future services, which creates an unjustified expectation about results that the licensee can achieve.
 - (h) The communication of personal identifiable facts, data, or information about a client without first obtaining client consent.

(Rule 0870-01-.17, continued)

- (i) Any misrepresentation of a material fact.
- (j) The knowing suppression, omission or concealment of any material fact or law without which the advertisement would be deceptive or misleading.
- (k) Statements concerning the benefits or other attributes of procedures or products that involve significant risks without including:
 - 1. A realistic assessment of the safety and efficiency of those procedures or products; and
 - 2. The availability of alternatives; and
 - 3. Where necessary to avoid deception, descriptions or assessment of the benefits or other attributes of those alternatives.
- (l) Any communication which creates an unjustified expectation concerning the potential results of any treatment.
- (m) Failure to comply with the rules governing advertisement of fees and services, and advertising records.
- (n) The use of “bait and switch” advertisements. Where the circumstances indicate “bait and switch” advertising, the board may require the licensee to furnish data or other evidence pertaining to those sales at the advertised fee as well as other sales.
- (o) Misrepresentation of a licensee’s credentials, training, experience or ability.
- (p) Failure to include the corporation, partnership or individual licensee’s name in any advertisement. Any corporation, partnership or association which advertises by use of a trade name or otherwise fails to list all licensees practicing at a particular location shall:
 - 1. Upon request provide a list of all licensees at that location; and
 - 2. Maintain and conspicuously display at the licensee’s office, a directory listing all licensees practicing at that location.
- (q) Failure to disclose the fact of giving compensation or anything of value to representative of the press, radio, television or other communicative medium in anticipation of or in return for any advertisement (for example, newspaper article) unless the nature, format or medium of such advertisement make the fact of compensation apparent.
- (r) The use of the name of any licensee formerly practicing at or associated with any advertised location or on office signs or buildings after thirty (30) days from the departure of that licensee. (This rule shall not apply in the case of a retired or deceased former associate who practiced in association with one or more of the present occupants if the status of the former associate is disclosed in any advertisement or sign).
- (s) Stating or implying that a certain licensee provides all services when any such services are performed by another licensee.

(Rule 0870-01-.17, continued)

- (t) Directly or indirectly offering, giving, receiving or agreeing to receive any fee or other consideration to or from a third party for the referral of a client in connection with the performance of professional services.
- (5) Advertising Records and Responsibility
- (a) Each licensee who is a principal partner, or officer of a firm or entity identified in any advertisement, is jointly and severally responsible for the form and content of any advertisement. This provision shall also include any licensed professional employees acting as an agent of such entity.
 - (b) Any and all advertisement are presumed to have been approved by the licensee names therein.
 - (c) A recording of every advertisement communicated by electronic media, and a copy of every advertisement communicated by print media, and a copy of any other form of advertisement shall be retained by the licensee for a period of two (2) years from the last date of broadcast or publication and be made available for review upon request by the Board or its authorized representative.
 - (d) At the time any type of advertisement is placed, the licensee must possess and reply upon information which, when produced, would substantiate the truthfulness of any assertion, omission or representation of material fact set forth in the advertisement or public communication.

LAPSED LICENSE POLICY-MASSAGE THERAPIST

The Massage Licensure Board recognizes that an individual may inadvertently allow his/her license to expire. However, the law prohibits an individual from working as a massage therapist without an active license. As such, the Board has adopted the following procedures for reinstatement of an expired license.

1. Immediately upon recognition that the license has expired, the individual must cease practicing and a reinstatement application must be obtained from the Board's website or from the Board's administrative office.
2. The reinstatement application must be completed in its entirety. The application is to be signed, notarized, and returned to the Board's administrative office along with any additional information and all fees specified in the instructions.
3. Upon receipt of a completed reinstatement application, supporting documentation (including any required proof of continuing education), and the applicant's payment of all fees, the Board's administrator may reinstate a license which has been in an expired status for less than two (2) months immediately upon approval from the Board's consultant. Although the Board and administrative staff recognizes the applicant's urgent interest in having their license reinstated, preferential treatment will not be given to these applicants. All applicants are reviewed in the order in which they are received.
4. If the work history reflects that the individual has operated in excess of three (3) months but not more than twelve (12) months on an expired license, the Board will send the licensee an Agreed Citation that specifies payment of a fine calculated as follows:

Months works on expired license	Agreed citation civil penalty total
4	\$100
5	\$200
6	\$300
7	\$400
8	\$500
9	\$600
10	\$850
11	\$1100
12	\$1350

5. The license of an individual that has been sent an Agreed Citation pursuant to this policy will not be reinstated unless and until the Agreed Citation is executed by the licensee and payment of the fine remitted to the Board's administrative office.
6. Agreed Citations prepared in accordance with this policy shall be reportable on the Department of Health's website and on its monthly disciplinary action report, as well as to all appropriate federal databanks included the National Practitioner Data Bank (NPDB).
7. If the licensee refuses to execute the Agreed Citation and/or remit the civil penalty described therein within sixty (60) days of the date the Agreed citation is sent to the licensee, or if the establishment operated on a lapsed license for twelve (12) months or longer, the licensee shall be referred to the Office of Investigations and the Office of General Counsel for formal disciplinary action. Upon a proven violation, the minimum disciplinary action for this violation shall be:
 - a. A reprimand of the license and probation of the license until the next renewal period;
 - b. Assessment of civil penalties in an amount to exceed the amounts specified above;
 - c. Assessment of costs associated with investigating and prosecuting the matter; and
 - d. Any and all other remedies the Board deems appropriate.
8. In the event the matter is referred to the Office of Investigations and Office of General Counsel for formal disciplinary action, the Board's administrative office shall be permitted to reinstate those applicants for whom they have received a completed reinstatement application, supporting documentation (including any required proof of continuing education), and the applicant's payment of all fees, subject to further action on the license as described in paragraph seven (7) above. Though the Board's administrator may reinstate such a license upon approval from the Board's consultant, preferential treatment will not be given to these applicants. These applications will be reviewed in the order in which they are received. For applicants who have declined an Agreed Citation, their application will be deemed received sixty (60) days from the date the Agreed Citation was sent.

POLICY STATEMENT

TENNESSEE MASSAGE LICENSURE BOARD

ESTABLISHMENT LICENSE POLICY

The massage practice act defines a “massage establishment” as “a place of business held out to the public wherein massage is practiced.” T.C.A. § 63-18-102(4). The Massage Licensure Board’s rules further define an “establishment” as “a business or institution that is a fixed and permanent location or a mobile vehicle facility that is open and accessible to the general public for compensated massage services.” TENN. COMP. R. & REGS. 0870-01-.01(10). Under the massage practice act, any establishment engaging in or advertising massage for compensation must hold massage establishment license. T.C.A. § 63-18-104.

This policy is intended to expand upon these definitions to help massage therapists, massage customers, and the public at large understand when a massage establishment license is required.

The definition of “establishment” in the Massage Board rules has 3 parts: 1) fixed/permanent location or mobile vehicle facility; 2) open and accessible to the general public, and 3) for compensated massage services. An establishment license is required only if all three parts are met.

- 1) The Board believes that an establishment is fixed or permanent when there is consistency in the establishment’s location, regardless of how many days per week massage is practiced at that location. A “mobile vehicle facility” may require an establishment license despite being movable and would include massage performed in vehicles such as busses, RVs, large boats, or any other facility able to move or to be moved – such mobile vehicles will need massage establishment licenses if requirements 2) and 3) are met.
- 2) The Board believes that a facility is “open to the public” unless its clientele is limited to a list of specific individuals or the facility offers massage only to those who can access a closed environment, such as an office of some type. For example, if massage is offered within a private building only to employees of a certain business, the massage business would not be “open to the public” and would not require a massage establishment license. As another example, massage offered only to members of a sports team would not be “open to the public.”
- 3) “Compensation” is defined in the massage practice act as “the payment, loan, advance, donation, contribution, deposit or gift of money or anything of value.” If massage is not being done for compensation, a massage license is not required. For example, massages provided for free to attendees of a conference or participants of a walkathon, where the person receiving a massage does not pay anything for the massage and the person performing the massage does not receive compensation, would not require a license.

Under these guidelines, massage therapy practiced in the following circumstances will usually not require an establishment license because they tend to be temporary, short-term, one-time events that are not fixed and permanent: health fairs, festivals, concerts, tournaments, marathons, farmers markets, and promotional setups in businesses.

The Board encourages licensees and other interested individuals to carefully review the massage practice act, Massage Board rules, and this policy to determine whether a given situation requires a massage establishment license. If a situation arises that has no clear answer from the law, rules, and this policy, please contact the Board administrative office, who will work with a designated Board member to provide guidance in that situation.
